COMPLIANT

H02039P PHONE GRIPPER WITH COIL TETHER (NON-CONDUCTIVE)

0.6_{LB} 0.3_{KG}

MAX LOAD:

Now you can tether your phone or mobile device without the need for a permanent or semi-permanent connection point. Used in conjunction with a load rated tether, the Phone Gripper uses purpose-built silicon to create a load rated tethering solution with zero impact on device operation.

Traditional mobile device tethering relies on the use of powerful adhesives being applied directly to your mobile device to attach a load rated connection point that damages the devices finish when removed.

- Compatible with virtually every smartphone model

THE LEADER IN FALLING OBJECT PREVENTION

GRIPPS.COM

KEY FEATURES

Custom silicon compound made for strength & grip

Avoids installing a permanent connector point on a mobile device

No additional adhesives required

Integrated, load rated tether connection eyelet

Compatible with virtually every smartphone model

HOW TO USE

1

Pass cord through hole of Phone Gripper and weave it back through its own loop to create a choke-hold. Pull tight.

2

Pull all four corners of the Phone Gripper endings over the corners of your device to the front side. Ensure all corners are firmly applied and the Phone Gripper has a snug fit over device.

3

Apply the clip of the coil tether to your clothing by sliding the clip over the garment and snapping shut the clip. Ensure the clip is closed correctly by testing, firmly pull-on tether to check for a secure hold.
